## What are the reasons for your objection?

The Carlton Residents Association advocates on behalf of its members to:

- Support the retention of the heritage assets within Carlton and to discourage new development that fails to respect these assets\
- Maintain the quality of the public realm with a focus upon maintaining access to sunlight and sky views, and a pedestrian friendly scale
- Interpret and apply the performance based provisions of the Melbourne Planning Scheme fairly so that the interests of no one party are unfairly privileged over the interests of another party.

The Carlton Residents Association is generally supportive of this application, however the Association submits that the Palmerston Street elevation fails to respond appropriately to the heritage attributes of the adjoining heritage dwelling to the east.

In summary, the Association submits that, the sympathetic design response, that Clause 22.05 of the Planning Scheme envisages, may be better achieved if a more restrained approach were to be adopted in relation to the form, the materials used, and the treatment of the balcony on this Palmerston Street elevation.
