1. INTRODUCTION

Each building with cultural heritage significance located within the City of Melbourne has been assessed and graded according to its importance. Streetscapes, that is complete collections of buildings along a street frontage, have also been assessed and graded. Individual buildings are graded from A to E, while streetscapes are graded from Level 1 to 3, both in descending order of significance.

All graded buildings and streetscapes are included as heritage places in the Heritage Overlay of the Melbourne Planning Scheme.

This document lists graded buildings (and the associated streetscape grading) that are situated outside of the Capital City Zone (CCZ). The property listings are divided into the following eight geographical areas:

- Carlton;
- East Melbourne and Jolimont;
- Flemington and Kensington;
- Melbourne;
- North and West Melbourne;
- Parkville;
- Southbank; and
- South Yarra.

The attached “Heritage Inventory Geographical Areas” map shows the location of each of the above areas. Within each area individual properties are listed alphabetically by street name and numerically, with all odd street numbers appearing first followed by even numbers.

In addition to this document further information regarding every graded building is recorded on the relevant “Building Identification Form”. These Building Identification Forms are available for inspection at Council’s Development Planning Department.

The performance standards applied by Council when considering relevant permit applications are dependent on the particular building and streetscape grading. These performance standards are set out in the “Heritage Places Outside The Capital City Zone” local policy at Clause 22.05 of the Melbourne Planning Scheme. This local policy only applies to places within the Heritage Overlay Area that are situated outside of the Capital City Zone.

The building and streetscape grading definitions are provided on the following page.

2. DEFINITIONS

2.1 Buildings

The definitions used for each of the building gradings are as follows:

‘A’ Graded Buildings

These buildings are of national or state importance, and are irreplaceable parts of Australia’s built form heritage. Many will be either already included on or recommended for the Victorian Heritage Register or the Register of the National Estate.

‘B’ Graded Buildings

These buildings are of regional or metropolitan significance, and stand as important milestones in the architectural development of the metropolis. Many will be either already included on or recommended for inclusion on the Register of the National Estate.

‘C’ Graded Buildings

These buildings demonstrate the historical or social development of the local area and/ or make an important aesthetic or scientific contribution. These buildings comprise a variety of styles and buildings types. Architecturally they are substantially intact, but where altered, it is reversible. In some instances, buildings of high individual historic, scientific or social significance may have a greater degree of alteration.

‘D’ Graded Buildings

These buildings are representative of the historical, scientific, architectural or social development of the local area. They are often reasonably intact representatives of particular periods, styles or building types. In many instances alterations will be reversible. They may also be altered examples which stand within a group of similar period, style or type or a street which retains much of its original character. Where they stand in a row or street, the collective group will provide a setting which reinforces the value of the individual buildings.

‘E’ Graded Buildings

These buildings have generally been substantially altered and stand in relative isolation from other buildings of similar periods. Because of this they are not considered to make an essential contribution to the character of the area, although retention and restoration may still be beneficial.

2.2 Streetscapes

The definitions used for each of the streetscape gradings are as follows:

Level 1 Streetscape

These streetscapes are collections of buildings outstanding either because they are a particularly well-preserved group from a similar period or style, or because they are highly significant buildings in their own right.

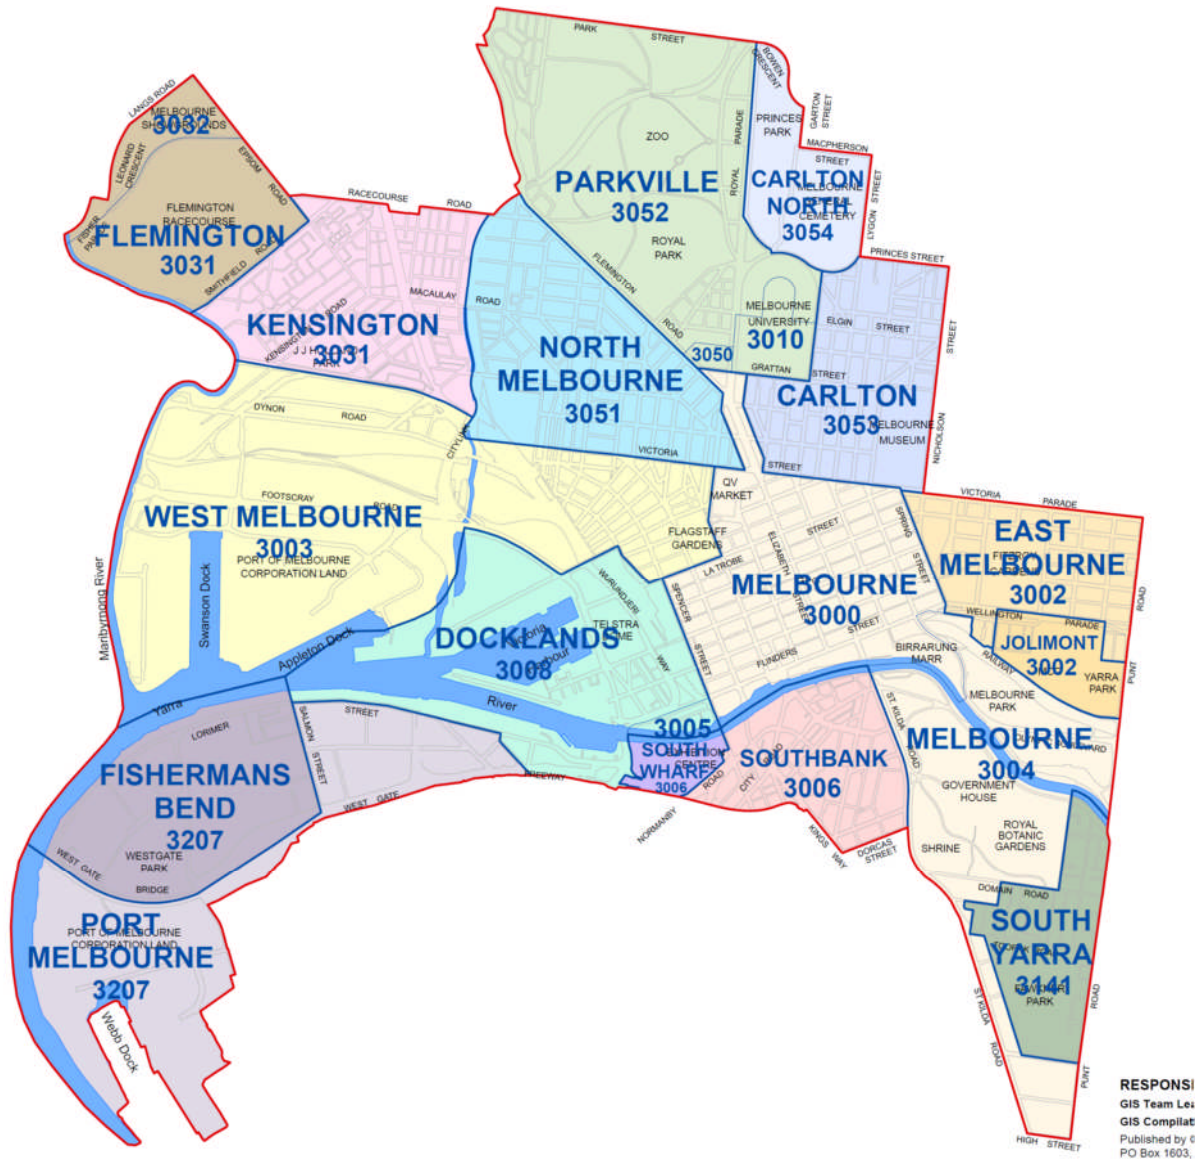

Level 2 Streetscape

These streetscapes are of significance either because they still retain the predominant character and scale of a similar period or style, or because they contain individually significant buildings.

Level 3 Streetscape

These streetscapes may contain significant buildings, but they will be from diverse periods or styles, and of low individual significance or integrity.

INTRODUCTION

Buildings contained in the Heritage Overlay of the Melbourne Planning Scheme which are categorised as 'significant' or 'contributory' are listed in this document. This document also indicates whether they are located in a significant streetscape.

Buildings contained in the Heritage Overlay of the Melbourne Planning Scheme are 'non-contributory' if they are not:

- Categorised as 'significant' or 'contributory' in this document or another incorporated heritage document to the Melbourne Planning Scheme, or
- Graded in the *Heritage Places Inventory 2020 Part B* or another incorporated heritage document to the Melbourne Planning Scheme, or
- Contained in the *Central City Heritage Study Review 1993*.

The property listings are divided into the following geographical areas:

- Carlton;
- East Melbourne and Jolimont;
- Flemington and Kensington;
- Melbourne;
- North and West Melbourne;
- Parkville;
- Southbank, South Wharf, Docklands & Port Melbourne; and
- South Yarra.

Within each area individual properties are listed alphabetically by street name and numerically.

In addition to this document, further information regarding each of these heritage buildings is recorded on the relevant "Building Identification Form". These Building Identification Forms are available for inspection at Council's Development Planning Department.

The policies applied by Council when considering relevant permit applications are dependent on the particular building category and whether it is in a significant streetscape. These policies are the "Heritage Places In the Capital City Zone" local policy at Clause 22.04 and the "Heritage Places Outside The Capital City Zone" local policy at Clause 22.05 of the Melbourne Planning Scheme.

The building category and significant streetscape definitions are provided on the following page.

DEFINITIONS

The definitions used for each of the heritage place categories are as follows:

‘Significant’ heritage place:

A ‘significant’ heritage place is individually important at state or local level, and a heritage place in its own right. It is of historic, aesthetic, scientific, social or spiritual significance to the municipality. A ‘significant’ heritage place may be highly valued by the community; is typically externally intact; and/or has notable features associated with the place type, use, period, method of construction, siting or setting. When located in a heritage precinct a ‘significant’ heritage place can make an important contribution to the precinct.

‘Contributory’ heritage place:

A ‘contributory’ heritage place is important for its contribution to a heritage precinct. It is of historic, aesthetic, scientific, social or spiritual significance to the heritage precinct. A ‘contributory’ heritage place may be valued by the community; a representative example of a place type, period or style; and/or combines with other visually or stylistically related places to demonstrate the historic development of a heritage precinct.

‘Contributory’ places are typically externally intact, but may have visible changes which do not detract from the contribution to the heritage precinct.

‘Non-contributory’ (-) place:

A ‘non-contributory’ place does not make a contribution to the cultural significance or historic character of the heritage precinct.

The definition used for a ‘significant streetscape’ is as follows:

‘Significant streetscapes’ are collections of buildings outstanding either because they are a particularly well preserved group from a similar period or style, or because they are a collection of buildings significant in their own right.
